**Communications Data Group Implements CABS and MBS Systems at
Moundville Telephone Company**

CHAMPAIGN, IL – Communications Data Group, Inc. (CDG) is pleased to announce the signing of a multi-year contract and the implementation of its CABS and MBS billing systems at Moundville Telephone Company (MTC), an ILEC service provider located in Moundville, AL.

CDG's detailed and aggressive implementation not only successfully migrated Moundville's data but also increased the transparency of MTC's billing data between how package, bundle and charge information is entered into the application, how it is recorded within the billing system, and finally how it appears on customers' invoices. Implementation was completed on time, and Moundville recently went live on their new billing systems and began producing invoices.

About CDG:

CDG is a telecommunication billing solutions source offering MBS for wireline, internet, cable, VoIP, and IPTV convergent billing, electronic billing, service provisioning, customer care, mediation, operational support systems and Carrier Access Billing System (CABS). CDG's CABS solution is flexible, scalable and developed in a modular design. Invoices produced either electronically, on CD-ROM or paper meet C/BOS industry output standards. The system provides audit trails for tracking messages and minutes. All Meet-Point options for all carriers, traffic types, jurisdictions and tariffs flow through the system.

About Moundville:

Moundville Telephone Company (MTC) is a private local telephone communications company founded in 1932. MTC provides internet and telephone services to Moundville, AL and the surrounding area.
