

Communications Data Group (CDG): Credit Card Processing Powered by *OpenEdge*

CDG has partnered with OpenEdge to offer you an easy, efficient, and secure integrated payment solution for credit card processing that saves you time and adds convenience to your business.

FEATURES AND SERVICES

- **One-step payment processing** – Process credit cards and ACH directly within MBS (Modular Billing System) – no more keying payments into a terminal. This feature will reduce costly errors and reconciliation times.
- **Card not present transactions.** Your customers now have the capability to pay their invoices through E-Care.
- **Walk-in or over the phone payments** – Adds convenience for your customers when they have to pay their bill.
- **Process online payments through OpenEdge.**
- **Monthly auto-pay processing available.**
- **Choose the credit card types you want to support.**
- **FREE online reporting.** Saves you time and is easily accessible.
- **Greater data security** – Payment Card Industry (PCI) compliance expertise and support by processing transactions securely with Trustwave.
- **FREE 24/7/365 payment processing and merchant account support.**
- **FREE OpenEdge account analysis with price guarantee** – OpenEdge pricing experts have analyzed thousands of merchant accounts! The analysis will provide you with everything you need to know about your rates and how OpenEdge can save you money. OpenEdge will beat your current rates or any other published offer you have in hand or you receive a \$50 gift card.*

Contact OpenEdge today and get started!

* If OpenEdge cannot beat the merchants effective rate, only one \$50 gift card is awarded per merchant, not per location. Existing PayPros merchants and businesses outside the U.S. do not qualify. ©2014 Payment Processing, Inc. All Rights Reserved.

Feeling restrained by your current telecommunications billing products?

With fresh product appearances, enhanced usability, global services and new products and services in development, CDG has the tools and support needed to give you room to move.

Experience the accuracy and service excellence that are setting the industry standard. CDG is a leading telecommunications and data solutions source with over 30-years experience in consumer and carrier access billing, service provisioning, customer care, operational support systems and hosted solutions. CDG's technically skilled development and support personnel and serve ILEC and CLEC clients. We process more than one billion CABS messages monthly in all 50 states. Our 80 CABS clients represent the largest national carriers, and our 30 billing clients range from fewer than 500 to more than 75,000 subscribers.

MODULARITY (MBS)

Modularity (MBS) broke new ground as a comprehensive end-user billing system built on a highly flexible, modular structure. Take advantage of a smart approach to customer management and take control of your revenue stream with highly efficient, integrated billing tools. CDG's experience in end-user billing and its tradition of relationship-oriented service help you respond to your customers' demands.

AVAILABLE MODULES

- Customer Care
- Customer Invoicing
- Mediation
- Plant Records
- Trouble Reporting
- Service Activation Manager (SAM)
- E-Care
- Cash Drawer
- Patronage

CDG CABS

CDG CABS is the highest standard available in carrier access billing. Our carrier access billing system offers the flexibility to easily and automatically customize files for company-specific requirements. It interfaces with Modularity through our powerful Mediation module and with external data collection agencies to provide audit trails for tracking data used by either billing system. CDG CABS includes robust reporting capabilities to give users the data needed for definitive revenue assurance.
