#### CDG PARTNERS WITH BKD TO OFFER MBS ACCOUNTING AND MORE

Champaign, IL – Communications Data Group (CDG) is pleased to announce its recent partnership with BKD Technologies, a direct Microsoft Cloud Solution Provider (CSP). BKD Technologies will offer CDG clients' licensing options for Microsoft Dynamics 365 Business Central, which includes accounting, financials, business analytics, and other management tools.

The new integration will allow CDG customers that sign up for D365 Business Central with BKD to access the cloud-based Dynamics 365 Business Central system directly through their MBS application menu and have core accounting data pushed from MBS directly into the MS Dynamics 365 accounting application suite.

Businesses can start addressing basic functions needed to operate with the options available through Microsoft's cloud-based solutions and easily improve additional functionality as their business needs evolve. Dynamics 365 functionality includes: accounting, HR, manufacturing, distribution, field service, sales, marketing, CRM, and business intelligence reporting.

BKD Technologies works closely with clients to provide project management, change management, software selection and implementation, systems integration and data conversion, business intelligence for operational improvement and transaction lifecycle services.

“By adding this functionality to the MBS platform, CDG is bringing important integrations and functionality to our customers, helping position them for long-term success,” states Mike Chalk, CDG Vice president of Product Development. “We look forward to working with customers and BKD to get this and future MBS integrations in place.”
