CDG Promotes Mike Chalk to VP of Product Development Position

CHAMPAIGN, IL – Communications Data Group, Inc. (CDG) announces the promotion of Michael A. Chalk to Vice President of Product Development. As VP of Product Development, Mr. Chalk has the responsibility of defining and executing product development strategy for MBS, CDG's robust, scalable web and mobile billing solution. He is in charge of assembling and managing the product development and conversion groups, comprised of programming, design, and tech support specialists. In addition, he also works closely with our client partners during conversions to CDG's MBS product.

Bob LaBonte, CDG's President and CEO, stated that Mr. Chalk's promotion is well deserved. "Mike has demonstrated a unique ability to listen to customers, understand their businesses place in our changing industry and incorporate this information to build a stronger, more responsive product for our clients. Mike's business experiences give him a perspective not often found in a manger responsible for product development that clearly shows in the success of MBS to date."

Mike Chalk most recently served CDG as Manager of MBS Programming. He joined CDG more than 15 years ago and has 30 years of experience in software design, development, and management, with 20 years in the telecom industry. Mr. Chalk has a BS in Computer Science from Truman State.

About CDG:
