FULL-SERVICE INVOICE PRESENTATION

Count on CDG to print, stuff publicity pieces, apply bulk mail permits, zip sort and present invoices for mailing by the United States Postal Service. Alternatively, invoices can be prepared, sealed or not, for shipment to your home office. CDG also offers bills using web-based, electronic bill presentation.

For carrier and other wholesale bills, CDG can ship statements and reports to your specifications by Federal Express, United Parcel Service, or United States Postal Service.

Clients preferring a paperless environment can receive end-user invoices and carrier statements, as well as MBS and BDS-I billing reports, on CD-ROMs or DVDs.
