

JOIN THE INDUSTRY'S FASTEST GROWING, MOST COMPLETE BILLING AND PAYMENT NETWORK AND GIVE YOUR CUSTOMERS EVEN MORE WAYS TO PAY.

Improve customer satisfaction. Receive more on-time payments. Drive adoption of self-service. It's all possible with the Paymentus Instant Payment Network™. Get to know our customer-centric, innovative technology through our advanced single-platform solution to offer the industry's most advanced billing and payment options.

EXPLORE SIX PAYMENTUS-EXCLUSIVE PAYMENT METHODS:

Just ask Alexa. Customers can use any Alexa-enabled device to check the status of their bills and make payments. By giving customers more ways to stay on top of their bills, you're more likely to receive payments on time.

There are 300 million Amazon accounts worldwide. Amazon Pay makes it easy for customers to pay utility bills using their Amazon account. If a customer has an Amazon account, they automatically have Amazon Pay.

Offer customers a streamlined checkout experience using PayPal's secure and fast checkout experience including One Touch™ and the ability to pay bills directly through the PayPal app.

PayPal Credit* is a digital, reusable credit line that provides customers with a safe, secure and flexible method of payment. With no interest for six months, give customers financial flexibility when they need it.

Reach new payer demographics. Customers can use Venmo, one of the most popular social payment apps in the world, to pay bills, split payments, and share payment success safely and securely while on the go.

90% of Americans live within 15 minutes of a Walmart store. Cash-preferred or debit card customers now have the convenience of paying bills at over 4,000 Walmart locations nationwide.
