

Communications Data Group (CDG): Credit Card Processing Powered by *OpenEdge*

CDG has partnered with OpenEdge to offer you an easy, efficient, and secure integrated payment solution for credit card processing that saves you time and adds convenience to your business.

FEATURES AND SERVICES

- **One-step payment processing** – Process credit cards and ACH directly within MBS (Modular Billing System) – no more keying payments into a terminal. This feature will reduce costly errors and reconciliation times.
- **Card not present transactions.** Your customers now have the capability to pay their invoices through E-Care.
- **Walk-in or over the phone payments** – Adds convenience for your customers when they have to pay their bill.
- **Process online payments through OpenEdge.**
- **Monthly auto-pay processing available.**
- **Choose the credit card types you want to support.**
- **FREE online reporting.** Saves you time and is easily accessible.
- **Greater data security** – Payment Card Industry (PCI) compliance expertise and support by processing transactions securely with Trustwave.
- **FREE 24/7/365 payment processing and merchant account support.**
- **FREE OpenEdge account analysis with price guarantee** – OpenEdge pricing experts have analyzed thousands of merchant accounts! The analysis will provide you with everything you need to know about your rates and how OpenEdge can save you money.
